

# The BART Process

1) Identify BART Eligible Sources

2) Identify Sources Subject to BART

The "Five Factors" from 61.309(e)(1)(ii)(A): The determination of BART ... must take into consideration the technology available, the costs of compliance, the energy and economic impacts of the control measure, any pollution control equipment installed on the source, the remaining useful life of the source, and the degree of improvement in visibility which may reasonably be anticipated to result from the use of such technology.
